Super Effective Acu-, Sport- and Kinesiology-Taping with AcuTop Premium Tape!

Exclusively using premium quality materials in producing our "AcuTop Premium Tape", we are able to offer a vast range of Kinesiology Tapes which have multifunctional Application- areas. This is particularly important for therapists, medical professionals, and athletes, where AcuTop Kinesiology Tape provides an exceptionally reliable choice.

Product Features

- Made from superior high-quality elastic cotton devoid of latex (97% Cotton, 3% Elasthan)
- The elasticity of 130% - 140% is comparable to the thickness and elasticity of human skin
- The tape has on one side a wavelike eudermic, hypoallergenic acrylic adhesive and in addition is thermoplastic. This means that the tape expands upon heating and retracts upon cooling.
- Water-resistant and excellent adhesive strength, even after bathing or showering
- Wearing comfort, oxygen permeability, and a very good dermatological tolerance are insured
- Clear marking on reverse side of tape, insuring easy measuring and cutting
- Leaves no adhesive marks on the skin, after removal
- CE - certified (medical product - Class 1)

Product Advantage

Premium Quality of Cotton Fabric

Premium Quality of Adhesive powerful but gentle on the skin

Grid Tape

What is the Grid Taping Therapy?

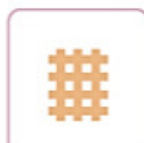

The grid taping refers to medical taping care remedy removing pain based on the muscular anatomy and balancing theory of Oriental Medicine, activating the physical body energy applying the grid Energy Theory.

Due to their simple and fast therapeutic handling, the grid-patches have been proven in practice.

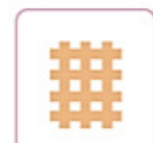

Features of AcuTop Grid Tape:

- Made of quality polyester, polyurethane and exhibiting new generation of acrylic adhesive
- The silk-like softness of AcuTop Grid Tape is extremely skin friendly (more like a second skin).
- In the form of a grid, it resembles very closely the relationship the muscles have with one another.
- It can be applied on pain-, trigger- or acupuncture points. It does not only aid in healing the painful area, but also works on the entire body, positively affecting the body's inner balance.

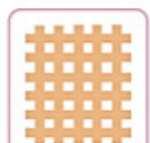

Types (Sizes) of the Tape

A: (3x4-3mm)

B: (3x4-4mm)

C: (5x6-4mm)

COMPANY PROFILE

DMC International Trading GmbH, a company specializing in acupuncture needles, taping, physiotherapeutical and medical products, was founded in 1997 by Dr. Miriam Cao.

DMC is based in Duesseldorf, the capital of NRW, Germany and home of the internationally renowned Medica Trade Fair. We import and stock high quality acupuncture needles and Kinesiology Tapes with our **AcuTop Trademark**. In addition we offer a large assortment of moxa and massage products, cupping, Gua Sha and associated medical products. DMC International Trading GmbH is growing and expanding mainly due to our philosophy:

- **High quality products, Best price, Prompt delivery, Reliable service!**

We export our products worldwide, especially to the majority of the European Community, striving for long-term satisfaction and cooperation.

You as our customer are our first priority!

Each year we present our products and services at the Medica Trade Fair, in Duesseldorf, Germany.

This trade fair is the number one medical trade fair worldwide. During the exhibition, we have the opportunity to meet and to win prospective new customers, to discuss further cooperation with our regular distributors, face to face!

Attention Distributors!

Our product highlights (DMC Bestseller), which are shown in this product guide, are only one part of our complete assortment of over 2.000 items.

If you are interested in **marketing** our products in your country, please don't hesitate to mail us your inquiry together with your company profile via email to

info@dmc-natur.de

We would be pleased to provide you with detailed export information including conditions, terms and pricelists, a.s.a.p.. We stock our bestseller products in large quantities in Germany. Normally the distributors in Europe receive their merchandise within about one week after ordering!
